SITE COMPLIANCE AUDIT SERVICE

Your next move counts

- Bespoke assessment
- Full action plan
- Support and advice

Maintaining high standards

Fairbanks offers a bespoke Site Compliance Audit Service, designed specifically to suit the needs of fuel retailers who wish to maintain the highest possible standards throughout their network.

Our site compliance audits cover all areas of legislation and include support and advice for any areas that need improvement. Our technicians visit your site and guide you through the audit process, leaving you with all of the necessary documentation. The complete, tailored, interactive action plan is then hosted on our secure web portal, which you can access and update at any time.

Areas covered by the audit

- Legal documentation
- DSEAR
- Fire safety
- Health and safety
- Maintenance
- Wetstock controls
- Forecourt safety

Each area of compliance is assigned a 'red', 'amber' or 'green' status, dependent upon the score achieved.

Full (green)	Indicates areas compliance. No actions required.
Partial (amber)	Indicates area does not fully comply. Although not urgent, remedial action should take place as soon as possible.
Critical (red)	Indicates non-compliance. All issues identified as critical require immediate attention and should be addressed as a matter of urgency.

Any issues, critical or otherwise, that are identified during the compliance audit are listed on the site compliance review document. Fairbanks offers support to your network on best practice, to assist with the corrective action required to reach a satisfactory audit score.

How do I schedule a site compliance audit?

To schedule a bespoke site compliance audit, call Fairbanks on 01695 52175 today.
