

## TOKHEIM QUANTIUM™ 510M ADBLUE® FUEL DISPENSER

# Contributing to a cleaner environment

The Tokheim Quantum™ 510M AdBlue® fuel dispenser helps fuel retailers to meet increasingly stringent emissions targets. It's sleek, reliable and helps address current environmental concerns.

AdBlue® is a proven and easy-to-use solution which converts harmful nitrogen oxides gases from diesel vehicle exhausts into nitrogen and steam to considerably reduce greenhouse gas emissions. The Quantum 510M AdBlue® fuel dispenser enables fast, accurate and reliable dispensing of this additive, straight to the designated tank on the customer's vehicle.

## Tokheim Quantum 510M AdBlue® fuel dispenser

### *Practical and Stylish*

Available as a standalone model or in combination with other fuels as a multiproduct dispenser, the Quantum 510M AdBlue® fuel dispenser now comes with a large media head as standard, facilitating an easy upgrade from LCD to media screens. Available for the first time as a four-hose model, the Quantum 510M AdBlue® fuel dispenser enables a convenient, accurate and fast fuelling experience.
