

## TOKHEIM QUANTIUM™ 210 FUEL DISPENSER

# More than meets the eye

A compact dispenser that doesn't sacrifice functionality, the Tokheim Quantum™ 210 fuel dispenser brings you power, high-speed and choice. It's small enough to be discreet, but big enough to make a difference.

The Quantum 210 fuel dispenser is ideal for private fleet companies and small fuel retail sites, who need the option to dispense two fuel grades from one location. This dispenser can easily slot into any forecourt or fleet environment due to its unassuming size without compromising on performance, and offers high-speed fuelling of up to 130 LPM.

## Tokheim Quantum 210 fuel dispenser

### *Distinctive yet Modest*

The Quantum 210 fuel dispenser offers more configuration options than the smaller Quantum 110 fuel dispenser, with the choice to dispense two fuel grades, and benefits from a clean and simple hose management system that complements this dispenser's compact footprint. Customise this model to reflect the very best of your brand, with bespoke graphics that really let your company identity shine.
